Bring Your Own Device (BYOD)

BYOD refers to students bringing a computer technology device, owned by a student or the student's family, to the school for the purpose of learning.

The device must be able to connect to the school's wireless internet and have certain programs or applications installed. To ensure that students can get the best learning opportunities at school and at home, the device they bring to school should have the minimum specifications listed below. If you will be purchasing a device in the near future it is recommend that the device have these specifications to enable students to make a successful connection to the school wireless network.
